Federal TBI Program

More than 3.17 million Americans live with a disability as a result of a traumatic brain injury (TBI). Many of these individuals and their families are confronted with inadequate or unavailable TBI services and supports. Passage of the Traumatic Brain Injury Act of 1996 (PL 104-166) signaled a national recognition of the need to improve state TBI service systems. The Act authorized the Administration for Community Living (ACL) to award grants to States for the purpose of planning and implementing needed health and related service systems changes.

Lead State Agency

Department of Health and Human Services, Office of Aging and Disabilities Services, Brain Injury Services

Maine's Grant History

Maine has received \$850,000 in Federal TBI Planning and Implementation Grants. The State has provided \$570,626 in matching support.

Infrastructure-at-a-Glance: 1997-2013
